

## How to Do a Food-Sampling Event (with commercial samples)

### Tempt 'Em with Taste!

1. Food-sampling events help people try vegan food and receive basic information.
2. Provide food samples as part of a larger event such as with a speaker at a library.
3. Ask food companies to donate vegan samples or purchase them from a store.
4. Follow local health department regulations.
5. Grant applications are available from VegFund.org.
